Picking can be done manually if it is not warehouse managed by

adding quantity in  field.

P-102 is warehouse managed, therefore pick quantity column is grayed out. It will require transfer order to pick material from warehouse.

P-102 does not now appear in "Material to be packed" section

Total weight (415 kg) is the sum of weight of packing material, PK-104(135 KG) and material, P-102(280 KG). The weights for packing and material to be delivered are copied from material master.

Example: weight of PK-104

Tare weight (135 kg) is the gross weight of PK-104

Loading weight (280 kg) is the gross weight of P-102

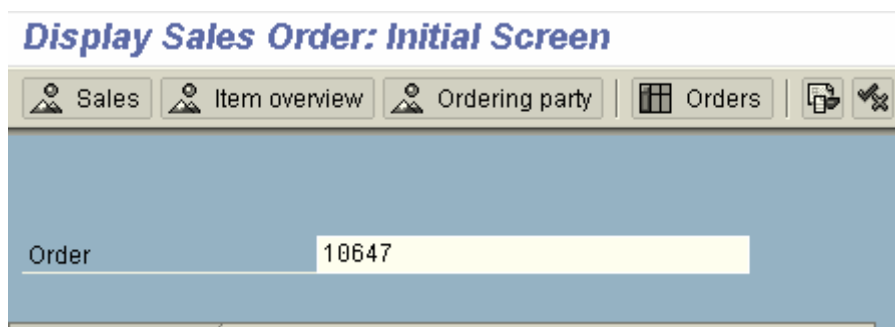

Double click on handling unit line and detailed data is displayed.

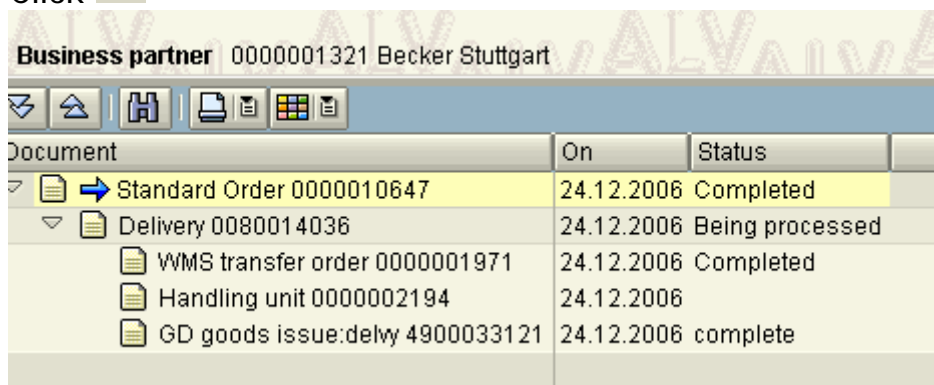

Delivery is saved and material document (MM) is created
