The screenshot shows a Windows desktop environment with a SAP Upgrade Assistant dialog box open. The dialog box has a blue title bar that reads "Upgrade Assistant - th04d436 - Input Window". Below the title bar is a "File" menu. The main content area of the dialog box contains the following text:

Note: Post-upgrade activities have to be performed. Please refer to the upgrade manual for the subsequent processing.  
Examples for these activities are:

- Distributing the new kernel
- Report generation
- Checking the database mode
- Database backup

At the bottom of the dialog box are two buttons: "Continue" and "Cancel".

The background of the desktop is a SAP splash screen with a blue and white abstract design. The SAP logo is visible in the top right corner. The taskbar at the bottom shows the Windows Start button, several open application windows, and the system tray with the time 12:04 PM. The taskbar also displays "SAPLSMTR\_NAVIGATION" and "th04d436 OVR".

Credits to the Original Uploader in AF and thanks to the person involved in making this wonderful documentation with screenshots.
