

## Error when writing data into ODS: DB\_TABLE\_SET\_LOCK-1-

Infopackage: YGT\_MV\_ACT – Full

### ODS: YGTTPVAR

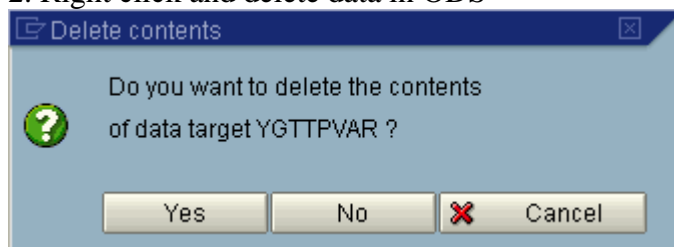

Because Selection Criteria is too big, we have to change in “Processing” tab and chose the 3<sup>rd</sup> option “Only PSA” and Update subsequently in data targets and save the changes.

We have to do the same for the 5 IP’s

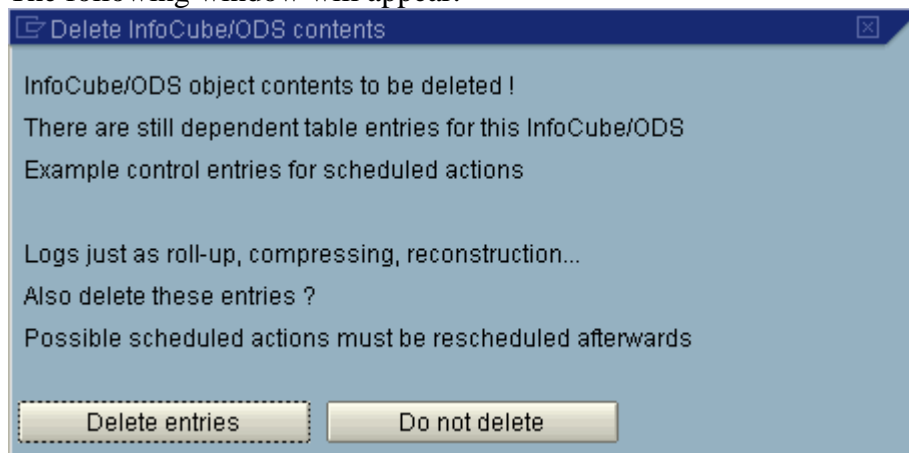

1. Make a search of the ODS YGTTPVAR

2. Right click and delete data in ODS

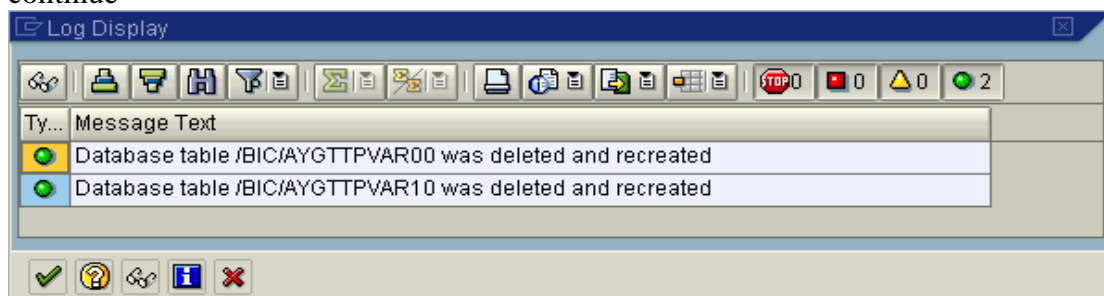

3. Click Yes

The following window will appear:

Chose “Delete entries”, the following window appear, click the green arrow to continue

4. Once deletion is complete then start the IPG again "TP\_Infopackage\_group\_adhoc"
