

How to delete a record in the request in PSA

Example:

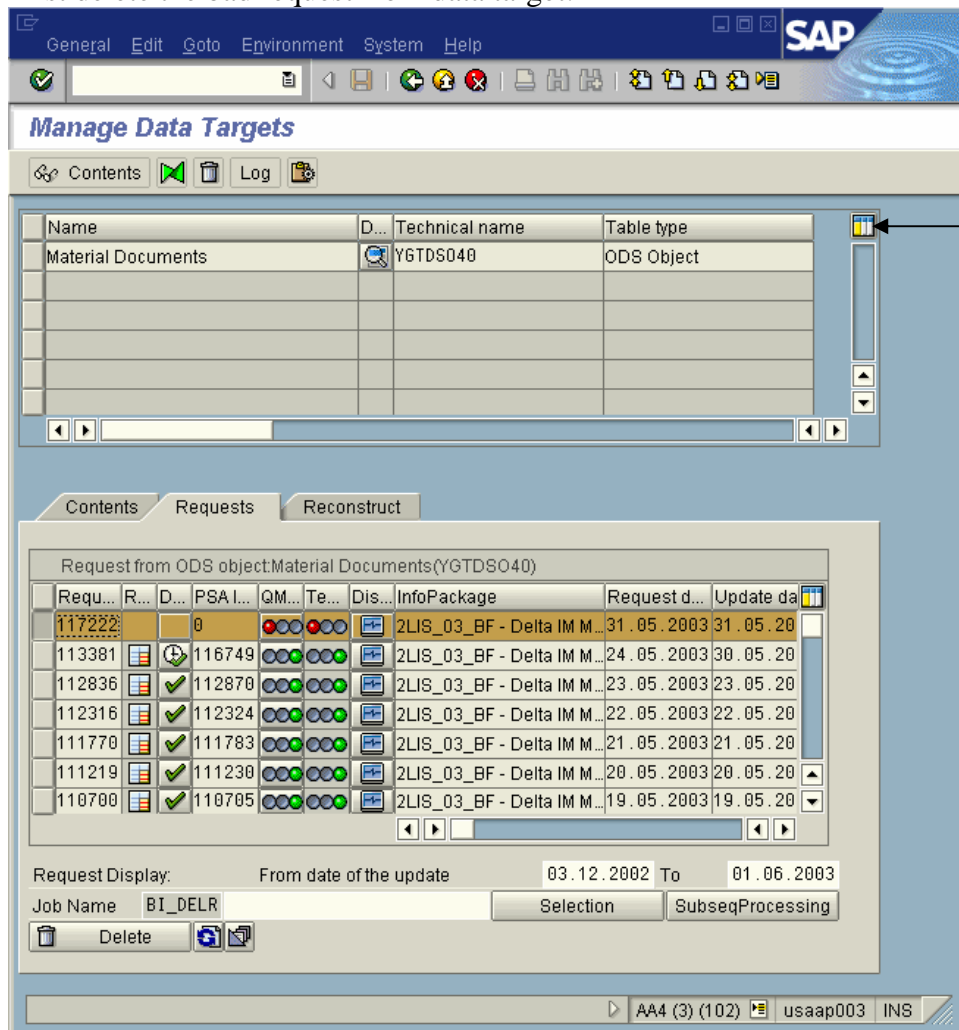

Infosource: 2LIS_03_BF - Delta IM Movements

Infopackage: YGTDS_2LIS_03_BF (Material movements from Inventory Control

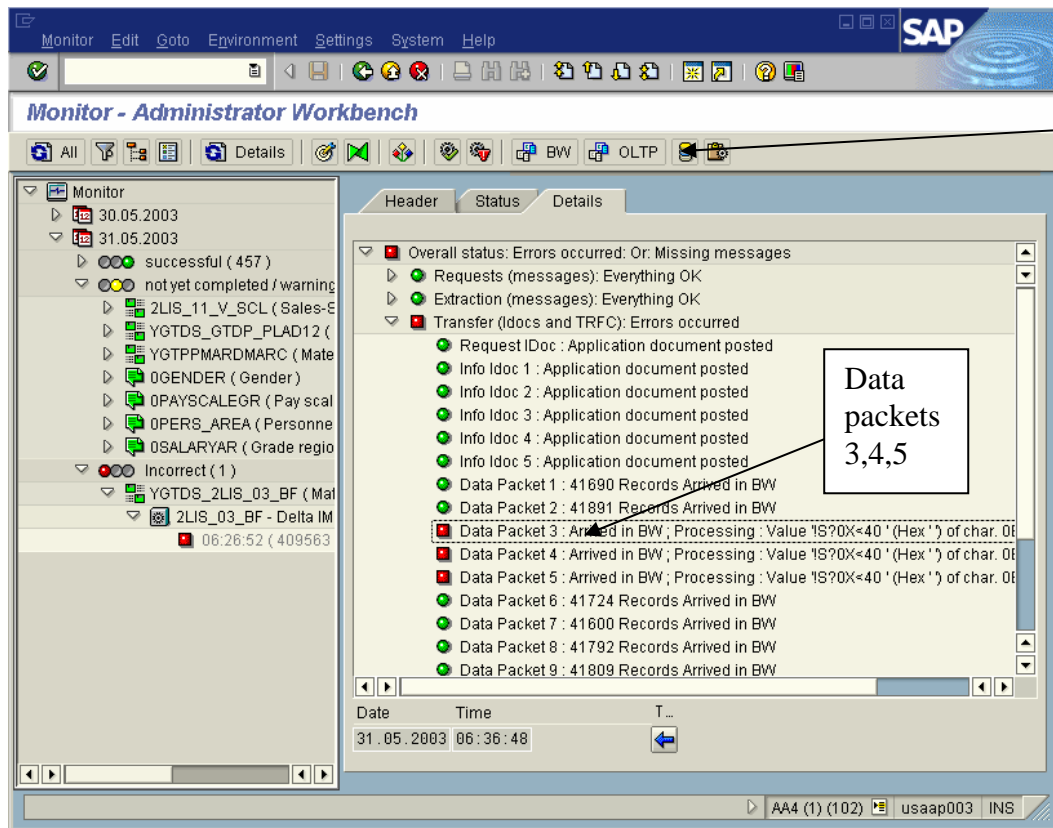

Error: Value '!S?0X<40 ' (Hex ' ') of char. 0BATCH contains unauthorized characters. (In Details tab of the IP)

Note: For this kind of error is necessary to open a ticket in order the market provide us with their approval to proceed with the deletion.

First delete the bad request from data target:

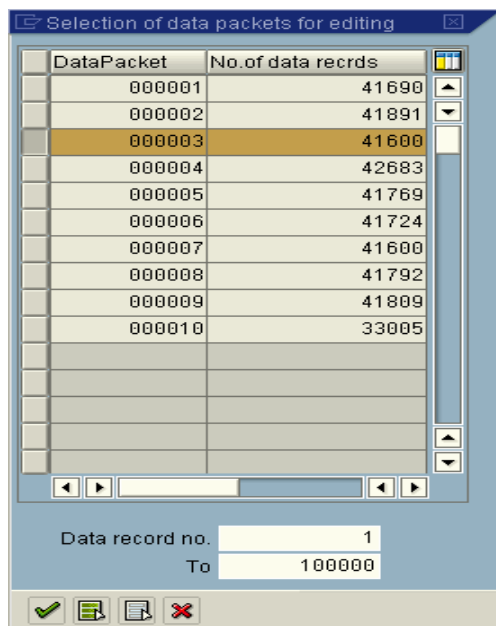

Next find the packet number(s) of where the error occurred in the monitor by looking at the **Details tab** in the monitor for that InfoPackage:

Next, go to the PSA and search and open the bad request.

Open the PSA DataPacket and search for the string in the error.

Search the string with the error

System bring back with found sales document highlighted. Exit from the pop up dialog box.

Double click the highlighted record line.

The 'Single record change' dialog box contains the following fields:

Request number	REQU_3P5EI41EBR5V2A6KJ4JS4CI...
Data packet number	000005
Data record number	14218
Indicator: Cancel Da	<input type="checkbox"/>
Sales and distributi	0000067014
Rejection status for	A
Item number of the S	000020
Confirmed quantity	0
Corrected quantity i	1
Schedule line date	2003/03/05

At the bottom, there is a toolbar with icons for: Confirm (green checkmark), Cancel (red X), and several document icons.

Blank out all the fields except the first 3 fields which are greyed out.

Step 8 simulates 'Delete' record from PSA.

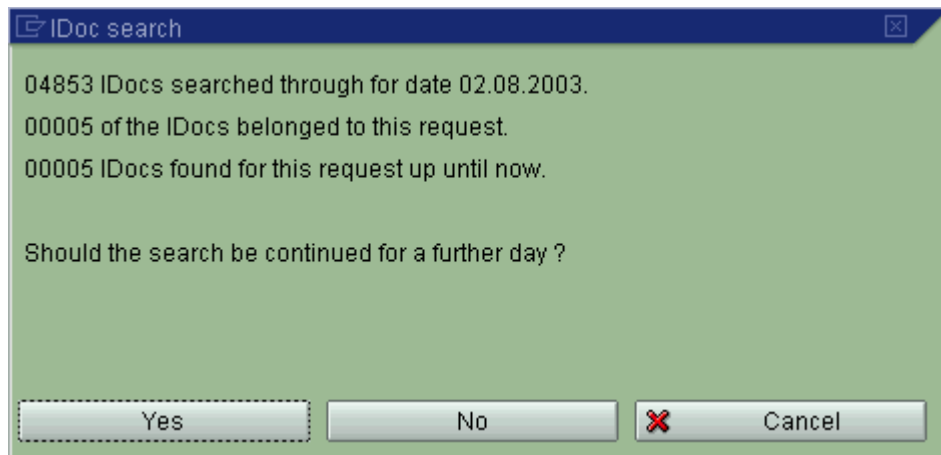

Once done save the PSA and reprocess the data packets.

Edit + Background

Edit + Read everything in manually

If the following message appear:

In this example, the error message in the monitor is:

Data Packet 3 : Arrived in BW ; Processing : Value '!S?0X<40 ' (Hex ' ') of char. 0BATCH'

0BATCH is the Batch Number column. Do a column search for a portion of the string that doesn't contain special characters such as "!", for instance, "<40".

Once the record is found, delete all data in that row and save it.
